A Report on Internship

Carried out at

PRECISION POWER PRODUCTS (I) Pvt. Ltd.

Submitted By

Prashant Bhimrao Katkar

Roll No. 4436

Under the guidance of

Prof. Umesh Shirale

In partial fulfilment of the requirement for

Degree of Bachelor of Technology

in

Electronics & Computer Engineering

at

Maharashtra Institute of Technology,

Chhatrapati Sambhajinagar

(An Autonomous Institute)

Affiliated to

Dr. Babasaheb Ambedkar Marathwada University,

Chhatrapati Sambhajinagar, Maharashtra, India.

(A.Y. 2025-2026)

CERTIFICATE

This is to certify that Internship Report

Submitted by

Prashant Katkar

Roll No. 4436

is completed as per the requirement of the Maharashtra Institute of Technology, Chhatrapati Sambhajinagar (An Autonomous Institute) affiliated to Dr. Babasaheb Ambedkar Marathwada University, Chhatrapati Sambhajinagar in Partial Fulfilment of

DEGREE OF BACHELOR OF TECHNOLOGY

IN

ELECTRONICS & COMPUTER ENGINEERING

(A.Y. 2025-2026)

Prof. Umesh Shirale	**Dr. S.J. Nandedkar**	**Dr. NileshPatil**
IPT Guide	Head of Department	Director

ACKNOWLEDGEMENT

I take this opportunity to express my sincere gratitude to all those who have supported and guided me during the first month of my ongoing internship and the preparation of this review report.

I am thankful to our respected **Director, Dr. Nilesh Patil**, for providing a supportive academic environment. I also express my sincere gratitude to our **Head of Department, Dr. S. J. Nandedkar** for her guidance and encouragement throughout the internship review process. I am grateful to my **IPT Guide, Prof. Umesh Shirale,** for his valuable suggestions, continuous support, and guidance during this review period. I would like to extend my heartfelt thanks to **Mr. Dadasaheb Suryawanshi, Senior Engineer at Precision Power Products**, for his mentorship and technical guidance during the internship. His support, practical insights, and encouragement have greatly contributed to my understanding of industrial practices and technical concepts. I am also thankful to all the staff members and employees of Precision Power Products, Chhatrapati Sambhajinagar, for their cooperation and support during the training period. The guidance and encouragement received from all the above individuals made this one-month internship review a valuable learning experience.

Prashant Katkar (4436)

ABSTRACT

This report presents a detailed overview of the **Three-month progress review** of the ongoing internship undertaken at **Precision Power Products Pvt. Ltd , Chhatrapati Sambhajinagar**, in partial fulfillment of the academic requirements of the **Electronics and Computer Engineering** program. The primary objective of this internship is to gain practical exposure to industrial working conditions and to understand the real-time applications of theoretical concepts learned during the course.

During the initial month of the internship, I have been familiarized with the organizational structure, workflow, and safety standards followed in the industry. The training involved an introduction to power products, electronic components, power supply units, and basic electrical and electronic systems used in manufacturing processes. I also observed various testing procedures and quality control practices adopted to ensure product reliability and efficiency.

In addition to technical knowledge, the internship has contributed to the development of professional skills such as effective communication, teamwork, discipline, and time management. This ongoing internship experience is expected to further strengthen my technical foundation and provide deeper insight into industrial practices, thereby preparing me for future professional challenges in the field of electronics and computer engineering.
